Business is somewhat "looking up," and as the season advances it is predicted that "times" will be better. In the money market there is little or no change to note, money being easily obtained at fair rates on good security. In New York and all northern cities money continues extremely e 'y. State bonds are firmer and higher, Virginias being queted at 67\$467\$, and we note sales of \$150 Virginia coupons at 864. We hear of no transactions in local railroad securities, and we quote:

The following resolution was offered by J. B. Syphax, and adopt d:

Resolved, That we recognize the Central Hayes and Wheeler Cub of Alexandria city as the central club of Alexandria county, and heartily offer them our support to co-operate with them in their efforts to secure the election of the republican caudidates at the November election, and the advancement of the p. u-

The expective committee of the club were announc d as follows: Wm. C. Wabert, Wash, C. Reeves, Hanry L. Holmes, Robert J. Cunningnam, Thornton Hyatt, James Stevens, Jefferson Tacey, James Clenkett, John W. Pendleton, Benj. J. Pollard, J. Willis Wormtey and John Curry.

THE ENFORCEMENT ACT .- A colored demoerat from Richmond on his way up the Mid land road, yesterday, was menaced by a number of his race, opposed to coercion, and would have been roughly handled out for the interposition of Mr. Foreacre, who took him in his office, and sent him back to Washington.

This is the only sort of intimidation that is practiced in the South. The white people have too much sense. When they seiz and shoot or hang a negro it is becau-e he is guilty of rape, murder, or arson, and they lear the courts will not mete out to him his proper punishment. I

THE GOVERNOR CURTIN .- The tug boat Governor Curtin, which was burned at Quantien, on Wednesday, as stated yesterday, was in-ured for \$4 000 in a company of which Mr. George Wire, of this city, is agent, and we un derstand a further amount of \$3 000 in an office at Washington city.

TELEGRAPHIC NEWS. Railroad Arcident. Columbus, O., Sept. 22 .- A most frightful accident occurred at an early hour this morning at Black Lick station, on the Pan Handle railroad, about welve miles from this city. The train was running at the rate of perhaps forty miles an hour, when from some cause four cars of the train jumped the track and rolled down an embankment, which is some 25 or 30 feet high at that place. The engine, baggage car and mail car remained on the rack, while those in the rear went off. This leads some to think that the accident was caused by a broken rail, while others are of the opinion that it was caused by jumping the track white making the curve. The cars that went over the embankment are in a badly broken condition. A gentleman who was on the train states that the cars are broken fine enough to make kindling wool of, and that there is not a single wheel on any of the cars. Intelligence was at once sent to the city, and in a few minutes a wrecking train and physicians were on the scene of the accident, and every attention that could be given was paid the wounded. Conductor Lacy, who was in charge of the train, and his assistants did what was in their power to alieviate their suf wounded were brought to the Union depot. from whence the wounded were removed to the hotels, the greatest portion of them going to the Exchange and National .-The physicians from the city r sponded promptly and were this morning busily mioistering to the wans of their patitents. In the confusion which prevailed it was hard to get the names of the killed and wounded. Four persons are known to have been killed on right, two men and two children, One of the killed is a son of S. P. Bennett, of Cairo, Illinois, Another is Lizzie Bancroft, of Pailadelphia, a child three years old. One of the men is said to be from St. Louis, and an other from Hamilton, Onio. O: the wounded no adequate idea can be given of the number. Many of them took the regular trains at the depot and departed for their homes without reporting to anyone. It is variously estimated that there must have been between thirty and forty more or less injured by the accident. Some of the wounds are very slight, while others are quite serious, many of the injuries being about the head and the upper portion of the body. The Union depot this morning had somewhat the appearance of a hastily devised hospital. The emigrant room had been used to receive the wounded, where they were placed upon hastily constructed b ds from which they were to be removed to the hotels. All but two had been remov I when the reporter visited the seene this morning, and they were very badly wounded, one of whom will perhaps die. About the depot, waiting for trains, were a number of persons with heads bandaged, arms in -lings or limping around as best they could. All who were on the train speak of the accident as a most trightful one, and are aston ished that deaths are so few. The wounded at the Neil House are: Mrs. W. H. Ellis, of New Orleans; she is badly bruised about the head, and Samuel Liniz, of Philadelphia, badly bruised about the body, but not seriously burt. All of these were in the sleeping car. The wounded at Davidson's Hotel are: Geo. Ohmer, formerly owner of the depot restaurant, in this city, and his wife and daughter, who are seriously injured; the injuries received by this party are principally internal and hody bruises; Mr. Ohmer is now a resident of Dayton, Oaio. J. C. D Brigg and wife, of Springfield, Mo., are badly bruised, but not seriously. Mr. L J. McCoy, who resides here, is seriously injured. NEW YORK, Sept. 22 -A Newport, R. I. dispatch says the mysterious suicide on the steamer Newport has, at last, been identified as Frank B. Smith, private secretary of the Secretary of the Navy, instead of as "Frank Wheeler," the name given by deceased before his death, just after his departure from New York, being evidently determined to commit suicide. He forwarded a note to that effect to his friend, and in fact he told him that he should commit the deed that very night. In \$6 to \$15 per quarter in advance the note he gave instructions about paying his just debts, and expressed a wish that the Fall coption, id classification of pupils every day af-River authorities might inter his body before ter Sept 10th, from 9 o'clock a. m to 12 m. those cutside of his friends knew his real ame. Hell Gate.

New York, Sept. 22 —Gen. Newton, in a card to the papers, fixing the Hell Gate explosion at 2:50 p. m. Sunday, says: Sheer necessity has compelled the appointment of this day, which, in many respects, is objectionable. He says a space will be formed having a radius of about six hundred yards, measured from Hallet's Point, which will be kept clear of boats at and near the time of explosion. After the explosion vessels should give Hallet's Point a wide berth as the suit ce of the reef may, in points, be elevated above its present level. As soon as possible after the explosion the reef will be marked out with buoys. There will be no commotion of the air, and the underground effect will be sufficient only to jar buildings, without upturning or cracking the walls. Per sons, at least, in the neighborhood would do well to have windows and doors open, and to look out for their cilings. The best thing to do would be to stand outside until the explosion

JOHN CROWE,

sep 21-wtd LIME. FARMERS, use what has of centuries as the most reliable improver of the

soil. Do not waste money upon nostrums whose value, as manures, in comparison with lime, shows to no better advantage than the witch-broth of quacks contrasted with the remedial agencies of the skilled physician.

If your land is worn out, you cannot restore

its fertility by successive stimulants-you must use lime to render food available, that the fi brous roots of plants cannot otherwise assimilate. It lime be followed by clover, the soil gets back its nitrogen and the object of the farmer is secured—good land, good crops and full pockets.
